**MPEG-4 Transition Plan
Phase 1 Step 6**

During the Transition to MPEG-4, when the timing is identified as a “LIGHT SWITCH”, you still need to provide Shaw Broadcast with the decoder UA number that you will be using for the signal in advance. If we do not have this information in advance you will have an outage with the signal until you provide the decoder UA to our help desk. The Light Switch does not occur as a soft switch.

The following change will take place for HD Pay-Per-View and Sportsnet One HD on June 27, 2017 during Step 6 of Phase 1 in the Transition to MPEG-4.

Light Switch – The light switches will occur at 10:00 AM EST.

English HD PPV 1 and Sportsnet One HD will remain on F2 T31, but will transition from MPEG-2 to MPEG-4 on June 27, 2017.
